CONTENTS

This booklet forms Part 1 of 2 of the subject-specific revision programme your teachers have prepared for you. We feel that it is important that you have access to this in preparation for your final exams in the summer.

Within this booklet, you will find a detailed overview for each subject, including a weekly breakdown of the topics, themes or skills you need to revise or practice. These topics are a guide to better structure your independent revision. This resource is provided to empower you with the tools to secure success in your final exams.

You are strongly encouraged to use the revision strategies learned from the breakout sessions in the Raising Achievement Evening, and through tutor time, to prepare revision resources that can support your knowledge recall over the longer term, and application to exam-style questions.

Should you have any questions, or require further detail, please speak with your class teacher in the first instance. Alternatively, contact the Head of Department for the subject who will also be in a position to support you.
